All Were Saved.

"For years I suffered such untold misery from Bronchitis," writes J. H. Johnston, of Broughton, Cal., "that often I was unable to work. Then, when everything else failed, I was wholly cured by Dr. King's New Discovery for Consumption. My wife suffered intensely from Asthma, till it cured her, and all our experience goes to show it is the best Croup medicine in the world." A trial will convince you it's unrivaled for Throat and Lung diseases. Guaranteed bottles 50c and \$1. Trial bottle free at Clay City Lbr. & Stave Co.

Statistics show that in the State of Kentucky there are 1,092 clothing manufacturing establishments, with a capital of \$1,590, 136 invested, and giving employment to 2,800 wage earners of the State.

Look Pleasant Please.

Photographer C. C. Harlan, of Eaton, O., can do so now, though for years he couldn't because he suffered untold agony from the worst form of indigestion. All physicians and medicines failed to help him till he tried Electric Bitters, which worked such wonders for him that he declares they are a godsend to sufferers from dyspepsia and stomach troubles. Unrivaled for diseases of the Stomach, Liver and Kidneys, they build up and give new life to the whole system. Try them. Only 50c. Guaranteed by Clay City Lbr. & Stave Co.

Double ignorance is where a man is ignorant of his ignorance.

In Need of a Street Sprinkler.

The recent dry spell has created a great deal of dust, and proved to Clay City people that we need a street sprinkler. One can be purchased for less than \$300 and there are numbers of persons who would be glad to get the job of using it after it was purchased. The merchants should be especially interested in sprinkled streets as the dust which accumulates on their goods damages them greatly each summer. Let the town authorities consider this proposition at one of its meetings. On one question we are very independent, that is the water question. Clay City is better watered than any other town in the State.

Found a Coal Mine.

Mr. Thomas Curtis exhibited several chips of the finest quality of cannel coal to us last Saturday which he had picked up on his place. Mr. Curtis certainly has coal on his farm, but as to how thick the vein is we can not state. His farm is out about two miles west of Clay City, and if the vein of coal should prove to be of sufficient thickness to operate, he has a snug little fortune in his hands. Mr. Curtis is going to have his mine developed this fall. We trust that coal burned in Clay City this winter will be supplied by Mr. Curtis.

The surest way to find out whether a woman's hair is red or she is only pretending it is, is to make fun of red-headed children and see how mad she doesn't get.

Promotions on the L. & E.

Owing to the large increase of business the L. & E. railroad has found it necessary to create the office of trainmaster. Chief dispatcher J. L. Tompkins has been promoted to the new office.

This is a deserved promotion for Mr. Tompkins, who has for the past fifteen years been a valuable employe of the road. For the last ten years he has occupied the position of chief train-dispatcher with offices at Lexington and before that time he was the company's agent at Clay City.

Mr. G. M. Harris, will succeed Mr. Tompkins as dispatcher. He is well equipped for the position as he has for the past two years occupied a similar position with the Clover Leaf system, with headquarters at Frankfort, Ind.

These appointments were made last Saturday and will go into effect August 10.

The company's business has increased to a very material extent, the present equipment being entirely inadequate to handle it. One hundred new coal cars have been ordered and will be put into service as fast as they arrive. Traffic has been very heavy all winter and spring on account of the opening up of the Cannel Coal mines at Cannel City.—Lexington Democrat.

A Weather Prophet Predicts.

Prof. Asa K. Martin the noted Winchester weather prophet, has figured out the weather and makes the following predictions: "The first frost of the season will fall September 17th. There will be twenty-three snows for this winter, the first to fall October 27th or November 5th. There will also be five zero days and two ice spells. To sum it all up we will have a cold wet winter and my advice to my friends is to get their coal now as it will be very high as the winter draws near. We will get ice from three to five inches thick.

A Successful Meeting.

Pastor Pence closed a protracted meeting at the Methodist church on Hardwick's creek last Thursday night in which there were ten additions to the church and a great revival of the church membership. Dr. J. T. Breese assisted the pastor in this meeting, which was held for nearly two weeks.

Couldn't Do It Again.

The Cincinnati ball club which won a game on Clay City's grounds two weeks ago, came back to our diamond again Sunday, and found that the latter game could not be so easily won, and went home with bowed heads and heavy hearts. The score stood 8 to 5 in Clay City's favor.

Shot at Mt. Sterling.

Sid Tipton, who now lives in Lexington, was shot by Authur Fitzpatrick in the latter's blacksmith shop on Monday. Tipton was taken to a Lexington hospital where his wound was pronounced very serious. An old grudge is the cause. Fitzpatrick has but recently been discharged from the Philippines where he served in the U. S. army. He is about 25

years old. Tipton is a married man and 50.

Railroad Feeders.

It is suggested that the automobile will give us, after a while, lines of railway without rails, if such an expression may be allowed. On Long Island, for instance, an automobile road of fifty miles in length is to be constructed to cross other roads either above or below grade, so that the owners may speed their machines as they please. When this has been done the next step, perhaps, to attach trailers, and the passengers and freight will be taken and a regular traffic established. At least it may be reasonably expected that the building of such roads will result in the running of automobile coaches as feeders to steam or electric lines, where it would not pay to lay a railroad track.—Lexington Democrat.

The good roads convention, to be held in Lexington, August 11-12, promises to be attended by four or five hundred delegates, and will mark an event of progress in the construction and maintenance of good roads in Kentucky. (Get from your county judge the names of the delegates from your county).

Not an unimportant feature of the convention will be an address upon the Rural Delivery System by Hon. A. W. Machen, general superintendent of the delivery system in the United States. Every phase of the good road subject will be thoroughly discussed.

Lexington has arranged to have a model road connecting Broadway with Versailles pike in course of construction during the convention. It will be a mile and a half in length, and will be one of the finest roads in the state when completed. Various entertainments will also be provided for the delegates.

Wm. Dowdell, a Daviess county farmer, was taken from his home Sunday night by white caps and given upwards of one hundred lashes with a blacksnake whip. He was beaten almost into insensibility. His condition is serious. He bore a good reputation among his neighbors.

Honey is said to be extensively used in the manufacture of some brands of plug tobacco. Such brands are the only brands that have any nutriment in them whatever, and we think it a great pity to adulterate the honey with such a poisonous and costly article.

Shatters All Records.

Twice in hospital, F. A. Gullledge, Verbena, Ala., paid a vast sum to doctors to cure a severe case of piles, causing 24 tumors. When all failed, Bucklen's Arnica Salve soon cured him. Subdues Inflammation, conquers Aches, kills Pains. Best salve in the world. 25c at Clay City Lbr. & Stave Co.

It is announced that Gov. Beckham will appoint Judge Ira Julian, of Frankfort, as special Judge to try the case of Tom Cockrell in the Breathitt Circuit Court. It is said that Judge Julian is willing to serve.

A conference of Mormon elders, representing the district compos-

ed of parts of Ohio, Virginia, West Virginia and Kentucky, was held in a tobacco barn near Owingsville last week. The Mormons have been working in that section for some time.

An organization was effected at Jackson, Monday, known as the Chamber of Commerce of Jackson, and having for its object the development and protection of commercial and manufacturing interests, and the promotion of law and order in the community.

Next to a man's family and business nothing should stand nearer his heart than the town in which he lives. It is the place where he earns his competence and educates his children. If he wants to make it populous, as thrifty and as widely known as possible he cannot afford to be indifferent to any thing which will further these ends.

Just Look At Her.

Whence came that sprightly step, faultless skin, rich, rosy complexion, smiling face. She looks good, feels good. Here's her secret. She uses Dr. King's New Life Pills. Result,—all organs active, digestion good, no headaches, no chance for blues. Try them yourself. Only 25c at Clay City Lbr. & Stave Co.

The Balance Wheel

Look inside your watch a moment. The balance wheel is making 18,000 vibrations an hour, if it's in good condition. If the movement is sluggish, there's something wrong. It will move 3,558 miles in a year, and requires less than one-tenth of a drop of oil to make it run. But it needs that little badly. The least degree of friction on the bearings alters the motion. Don't take chances. Let me clean and oil and put your watch in order for a year. It will pay and satisfy you.

ANNOUNCEMENTS.

CIRCUIT CLERK.

We are authorized to announce Mr. W. T. STRINGER, of Clay City, as a candidate for the office of Circuit Clerk of Powell County, subject to the action of the Democratic party.

We are authorized to announce Mr. Morgan R. LYLE, candidate for Circuit Clerk of Powell County, subject to the action of the Democratic primary to be held Dec. 6, 1902.

General prosperity abounds but strikes continually increase. Who can explain the paradox.

The various Oil Companies now operating throughout this State are daily bringing in fine wells. If all were as reported by them, Kentucky could easily supply the whole United States with all kinds of oil, and it looks useless for them to drill any further.

Democracy stands for, believes in, and legislates—that is registers its decrees and its belief that the people should be relieved more and more from the burden of taxation. We see by the decrees that it registers, by the laws it enacts that the Republican party works for a guilty prodigality. Vote for F. A. Hopkins and help to increase the Democratic majority in the House of Representatives.

The Republicans held a hot contested primary in the Eleventh to select a candidate for Congress. The candidates were Vincent Boreing, of Laurel, Judge E. Parker, of Laurel and D. G. Colson, of Bell county. Boreing is the present incumbent and won the nomination over the two other candidates by upwards of 6,000 plurality.

A Circuit Judge and Commonwealth's Attorney are to be elected next year. Candidates are springing up in most every district but this one. As Madison and Jessamine counties furnished these officers the two past terms, it seems to us that it is time for Powell and Clark to supply the nominees. Judge Benton, of Clark, and the present incumbent, who became so by appointment a few months ago, upon the death of Judge T. J. Scott, it is said, will be a candidate for Judge. No one, so far, has been mentioned to us for Commonwealth's Attorney. Judge Benton is making a good temporary judge, and we think he should be nominated to make the race. Powell has five good Democratic attorneys either of whom could creditably fill the office of Commonwealth's Attorney. Why not the honor be cast upon one of these worthy gentlemen? It is due their county and due them.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion. About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely. I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever. I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours, F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation. Examination and advice free. YOU CAN CURE YOURSELF AT HOME at a nominal cost. INTERNATIONAL AURAL CLINIC, 596 LA SALLE AVE., CHICAGO, ILL.

A Cure for Cholera Infantum.
"Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by all dealers in patent medicine.

Times must be prosperous in Clay City, especially so with those who have property to rent. One can scarcely find an empty house any time in Clay City. Some one who has some surplus money might find it a profitable investment to build a few nice cottages to rent. Rent seems to be very high, and nice interest could certainly be made on an investment of a few thousand dollars in these cottages. We trust some one will take up the matter and go to work at once.

A YOUNG LADY'S LIFE SAVED.
At Panama, Columbia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter, a prominent physician, of Panama, Colombia, in a recent letter states: "Last March I had as patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well."—For sale by all dealers in patent medicine.

Mr. Wesley Garrett say to sprinkle flour on your cabbage while the dew is on in the morning and you will not be bothered with worms.

A. J. Cottingham went to Washington County, Ark., to see his sister and while there was taken with flux (dysentery) and was very bad off. He decided to try Chamberlain's Colic, Cholera and Diarrhoea Remedy and was so much pleased with the prompt cure which it effected, that he wrote the manufacturers a letter in praise of their medicine. Mr. Cottingham resides at Lockland, Ark. This remedy is for sale by all dealers in patent medicine.

An exchange very pertinently remarks: "One of the funniest sights to see are the young sap suckers who have gone to the city, and, after a short time, return to the 'country' home on a visit to the 'old man and old woman,' as they slightly speak of father and mother. It is remarkable how small the old home town grows, how the moss has accumulated on the back of his boyhood acquaintances. These little roosters go to the city and earn a salary of probably two dollars a week and their washing, but when they come 'out home in the brush' they cut a splurge that is amusing, extremely amusing, to their country acquaintances. The lads have forgotten how they used to cross the old public square as chief pilot to the brindle cow, or how they brought up the week's 'laying' of eggs to trade for brown sugar and a stick of candy thrown in. They have forgotten the dirty face, running nose, one gallus and stone bruise. Just wait till warm weather and you will see a lot of these now world famous men 'just drop in to kill a little time.' It's not more than one in half a dozen who turn darnphool this way, but some of them do, and when they come around be sure to take off your hat, offer your chair, and make much ado, for they are monied men, having probably as much as \$5. and a return ticket."

Treasurer of the
Brooklyn East End Art Club.
"If women would pay more attention to their health we would have more happy wives, mothers and daughters, and if they would observe results they would find that the doctors' prescriptions do not perform the many cures they are given credit for."
"In consulting with my druggist he advised McElree's Wine of Cardui and Thedford's Black-Draught, and so I took it and have every reason to thank him for a new life opened up to me with restored health, and it only took three months to cure me."

Wine of Cardui is a regulator of the menstrual functions and is a most astonishing tonic for women. It cures scanty, suppressed, too frequent, irregular and painful menstruation, falling of the womb, whites and flooding. It is helpful when approaching womanhood, during pregnancy, after childbirth and in change of life. It frequently brings a dear baby to homes that have been barren for years. All druggists have \$1.00 bottles of Wine of Cardui.

WINE of CARDUI

While Sunday service was in progress in a church near Catlettsburg, Sylvester Copley, Jr. placed a 48 caliber revolver against the breast of John White and shot him through the heart. White was dead in four minutes Copley made his escape through the woods. An old grudge in the case. The murderer has since surrendered to the Soeriff.

The greatest Fair in their history is what the Lexington Elks expect to give next week. Everything is in readiness for the big show and nothing will rival it in Kentucky this year.

President Harbison says the horse shows will be bigger and the Cattle shows better than ever, and this with the daily automobile races, band concerts, running races, t ot special rings and other varied amusements offered should go to make up one of the best shows of the kind ever attempted.

The speed ring programme will be one of the best ever seen at the Lexington Fair.
